7668130244 | Portfolio | Mail | LinkedIn | Github | LeetCode

TECHNICAL SKILLS

Languages: C++, Java, Javascript, SQL,
Frameworks: React, Node.js, TailwindCSS
Cloud & DevOps: AWS (IAM, EC2, VPC, S3, Lambda), Docker
Other: Git, Github

PROJECTS

CODE-EDI | Live | Github | *HTML, CSS, Javascript*

- Engineered a web editor tool with features like code download, file access, note-taking, and quizzes.
- Integrated cheat sheet and music playback, boosting productivity by 35% and engagement by 20%.

APNA-CLOSET | Live | Github | *HTML, CSS, Javascript*

- Developed a platform for selling, buying, and renting second-hand clothes, allowing users to seamlessly list and transact items.
- Enabled over 500+ clothing transactions within the first three months, contributing to sustainable fashion and reducing waste.

GHUMAKKAD | Live | Github | *HTML, CSS, Javascript*

- Constructed a comprehensive travel website featuring 50+ destination highlights with detailed information, captivating photos, and engaging videos.
- Integrated a blog platform for over 1,000 user-generated stories and reviews, fostering community engagement and interaction.

MEMORLIA | Live | Github | *React, TailwindCss, Cloudinary*

IN WORK

- Built a interactive media gallery that enables users to click images to play videos and send portfolios for special occasions.
- Implemented image-click video playback, boosting engagement by 30% and user-generated content by 40%.
